

Looking for someone to run the THSBA Live Release tank for the Central Division events.
Schedule is as follows:

9/28/19 - Palestine
10/19/19 - Richland Chambers
11/9/19 - Fork
2/22/20 - Ray Hubbard
3/14/20 - Cedar Creek
4/11/20 - Tawakoni

Tank is stored in Flint, TX. Tank has a 1,000 gallons capacity. Completely full would weigh roughly 11,500 lbs, plus weight of fish put in the tank. More than likely would need a diesel truck.

Tank would need to be pulled to the tournament, filled with lake water from tournament waters and then fish weighed in returned to tournament lake. Three (3) events are off-site weigh in locations, but close to the tournament lake. Would need to show up at the event with tank ready to go by 1 pm. Weigh in over at 4:30 pm.

Background check required.
Sexual Abuse Awareness training test also required via the Safe Sport Act.

Pays \$350 an event.
